

Track and Sign Certification

w/ Phil Johnston
a professional tracker

Sat. and Sun. 8am-5pm

Sept. 12thth and 13th

\$500 per participant

\$450 for NHM members

Register through the Natural History Museum

Track and Sign Certifications offer a unique experience for naturalists of all experience levels looking to develop their wildlife tracking skills and learn to read the stories animals leave on the landscape. This workshop is in the field for two days. Participants engage with real wildlife tracks and signs, sharpening their skills, and enhancing their knowledge. The certification process provides an unparalleled learning experience by combining the elements of a certification with a workshop. You are guaranteed to learn a lot.

LIMITED TO 10-12 PARTICIPANTS

Phil is a Track and Sign Evaluator and is passionate about making wildlife tracking a more accessible skill to people from all walks of life. He is biologist for the CDFW, has worked in Hoopa, and conducts mountain lion research. He is also pioneering non-lethal strategies to protect endangered Sierra bighorn from mountain lion predation.
