CAL POLY HUMBOLDT

**1242 G. ST
ARCATA, CA**

**Friday
April 3rd
2026
6:30-8PM**

The lecture
will be held in
the classroom
in the back

**The event is free,
but donations
are appreciated!**

“INSECTS: SMALL CREATURES, BIG IMPACT”

**Look Closer During this hands on lecture
Presented by: Kevin Huntley**

Discover the powerful role insects play in our local ecosystem. From Beetles to Bees and beyond. Explore the fundamentals of insect life and take a guided journey through Humboldt County’s largest insect collection featuring over 400 species.

Born in 1989, Kevin Huntley has dedicated his career to exploring and sharing the remarkable world of insects. He began developing public educational programs in 2013 for Wyndham in Sedona, Arizona, and has since created engaging insect exhibits and interpretive experiences for diverse audiences. The success of these initiatives has led him to become an independent speaker, bringing dynamic and accessible entomology to communities throughout the region.
