

Favorite Fungi: Meet the Parasites & Slimes

November 7th, 2025 6:30-8pm

Maria Morrow

**Professor of Botany &
Environmental Science
College of the Redwoods**

**Donations
Appreciated!**

Come learn about fungal parasites, including mushrooms sharing mycelia, rotting Russulas, exploding exoskeletons, and animating arthropods. We'll also look at a few local species that produce tremendous amounts of goo, and generally just get excited about all things weird and wonderful.
