EARLY SEASON MUSHROOMS OF COASTAL HUMBOLDT

AN EVENING LECTURE

PRESENTED BY: MARIA MORROW

Let's take a metaphorical walk through some of our coastal forests and see what might be fruiting this month. This talk will cover some local species that you can expect to see or be on the lookout for. Perfect for those who are newer to mushrooming, or veterans of mushroom ecology! Take a closer look and discover what is in our local forests!

Maria Morrow:
Professor of Botany & Environmental Science College Of The Redwoods
