

The Natural History Museum

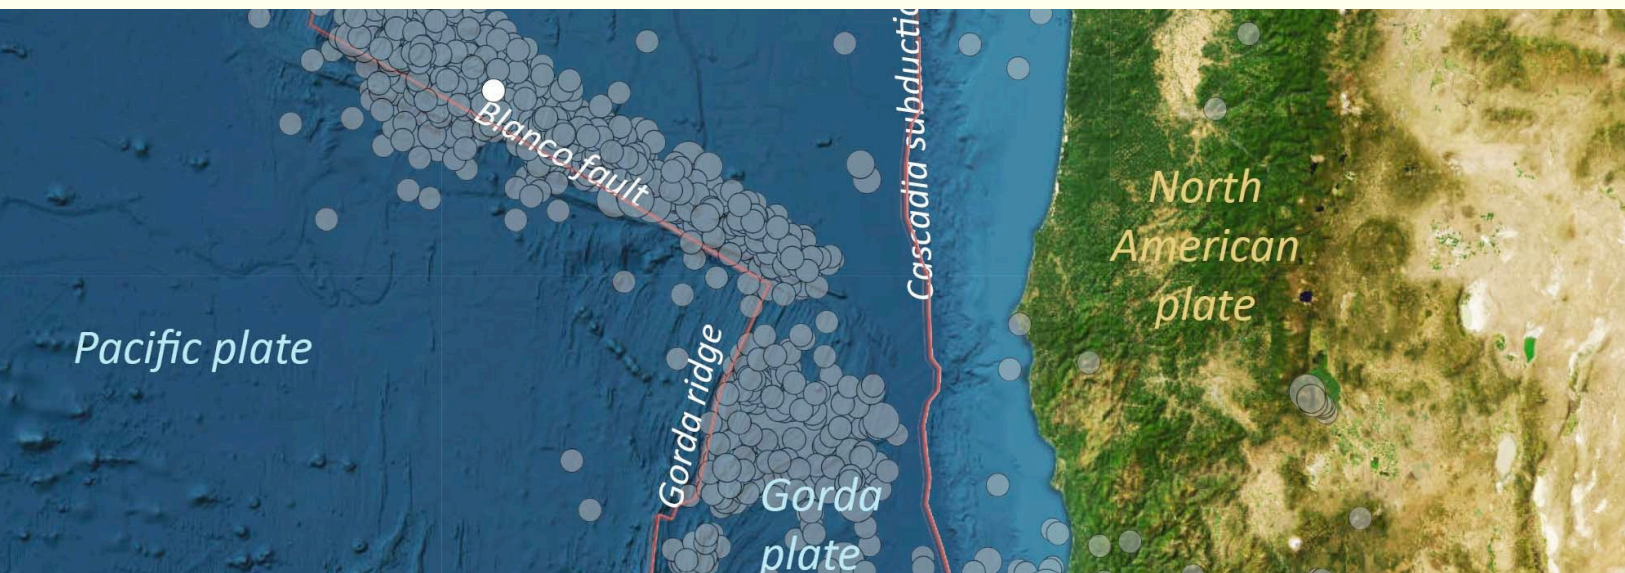

Of Cal Poly Humboldt

presents a talk with

Dr. Lori Dengler, Professor Emeritus of Geology

What happened December 5th?

Investigating the tsunami threat from the M7.0 Mendocino fault earthquake.

Join us during March Tsunami Awareness month as Lori Dengler shares current geophysics research on earthquake and tsunami hazards, including tsunami monitoring in Humboldt Bay and Crescent City, tsunami amplification along the North Coast.

March 24, 2025, at 5:30 PM

1242 G St Arcata - In the NHM Classroom behind the museum
